

## Project Purpose

Flooding has been reported at one business at the corner of 101<sup>st</sup> Street & Darnell Street, as well as flooding of the roadway. Additionally, portions of the existing pavement have reached the end of their useful life and are in need of total reconstruction. This project was submitted to the county and approved for Stormwater Management Advisory Council (SMAC) funding for the stormwater portion of the project. In addition to storm drainage improvements, deteriorating streetlights will also be replaced in this area.

## Project Description

This project includes expansion and reconstruction of the existing storm drainage system, reconstruction of existing pavement, and the replacement of functionally deficient street lights.

## Location

Darnell Street from 101<sup>st</sup> Street to Santa Fe Trail Drive

## Designer

GBA

## Contractor

To be awarded to the lowest, qualified bidder

## Timeline

**Estimated Start Date:** March 2013

**Estimated Completion Date:** November 2013

## Total Cost

\$2,490,912

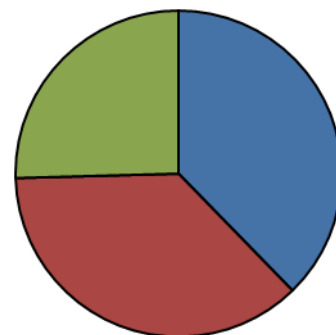

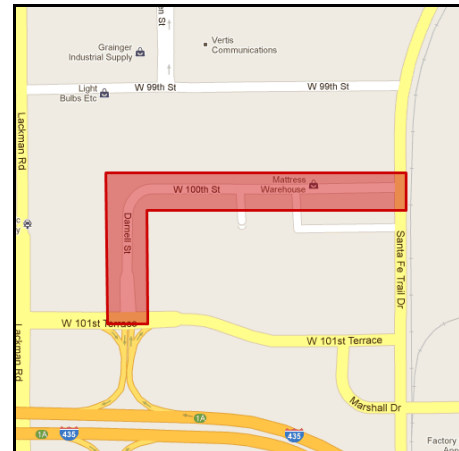

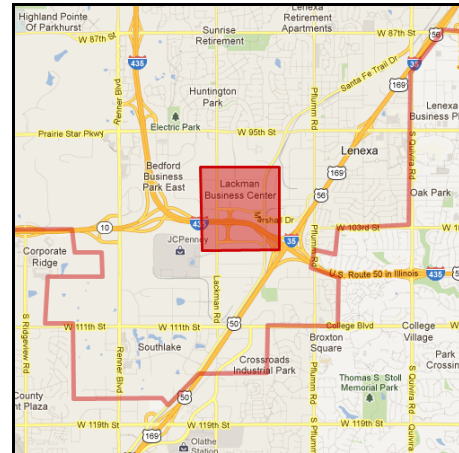

## Funding Sources

**City:** \$1,857,537 (75%)

- Stormwater bonds - \$939,218 (38%)
- Transfer - \$918,319 (37%)

**Other:** \$633,375 (25%)

- Stormwater Management Advisory Council (SMAC)
